

BAHATAM NUDRIK RAJU

React.js Frontend Developer | Software Engineering Analyst

[GitHub](#) | nudrikraju396@gmail.com | +91 8500632073 | [LinkedIn](#)

PROFESSIONAL SUMMARY

B.Tech graduate (Computer Science - AI & ML) with hands-on experience building React.js frontends across three internships, including a full MERN-stack engagement. Skilled in HTML5, CSS3, JavaScript, REST API integration, and component-based architecture, with working knowledge of Git/GitHub, Agile/Scrum, and SDLC. Writes clean, testable code and collaborates well with cross-functional teams.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript(ES6+), HTML5, CSS3, Responsive UI Design, Component-Based Architecture
- **Backend & APIs:** Node.js, Express.js, REST API Integration, MongoDB, SQL, MySQL
- **Engineering Practices:** Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC, Agile/Scrum, Clean Code Principles, Software Testing & Debugging
- **Tools & Languages:** Git, GitHub, Python, Java, C
- **Core CS Subjects:** Operating Systems, Database Management Systems (DBMS)

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern (MERN) | Elbert Technology Pvt. Ltd.

Jun 2024 - May 2025

- Built and maintained scalable React.js frontends integrated with Node.js/Express.js REST APIs and MongoDB across a MERN-stack product, working within an Agile/Scrum team.
- Partnered with cross-functional teammates to design, develop, and enhance reusable UI components; conducted testing, debugging, and performance optimization.
- Used Git/GitHub for version control, contributing to a modular, maintainable architecture following clean code and SDLC best practices.

Web Development Intern | Codetech IT Solutions

Nov 2024

- Engineered a dynamic e-commerce website in React.js with a live product catalog and shopping cart functionality, plus a To-Do List app with full CRUD and local storage persistence.
- Developed responsive, cross-device user interfaces using HTML5, CSS3, JavaScript, and React.js, following collaborative development best practices.
- Performed application testing and debugging, resolving functional defects to improve UI reliability.

Web Developer Intern | Next24Tech Technology & Services LLP

Oct 2024

- Developed a full-featured e-commerce web application with integrated payment gateway functionality and a responsive React.js portfolio website.
- Delivered an e-learning platform featuring user authentication and video course management, collaborating through the full software lifecycle: design, development, testing, and deployment.

PROJECTS

Skin Disease Detection & Classification using Deep Learning | Major Project

- Built a Python-based deep learning application using CNNs with transfer learning (MobileNetV3) to detect and classify skin diseases, training on 10,000+ medical images.

- Collaborated in a two-member team to design, develop, test, and optimize the model for reliable classification.

Blood Bank Management System | Minor Project

- Developed a full-stack web application to manage donor, recipient, and blood inventory records, including registration, stock tracking, and request management.
- Designed responsive user interfaces and improved functionality through iterative testing and debugging.

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML) - CGPA: 7.79/10 | Anurag Engineering College, JNTU *May 2026*

Diploma, Electrical & Electronics Engineering - CGPA: 7.24/10 | Anurag Polytechnic College *Mar 2023*

Secondary School Certificate - CGPA: 9.0/10 | Priya Educational Academy *Mar 2020*

CERTIFICATIONS & ADDITIONAL ACTIVITIES

- Artificial Intelligence Fundamentals; RPA & AI; Introduction to Generative AI (Jun 2024); Young Professional Certification (May 2024)
- One-month MERN Stack Hackathon, Elbert Technology Pvt. Ltd. / Anurag Engineering College - Aug 2025
